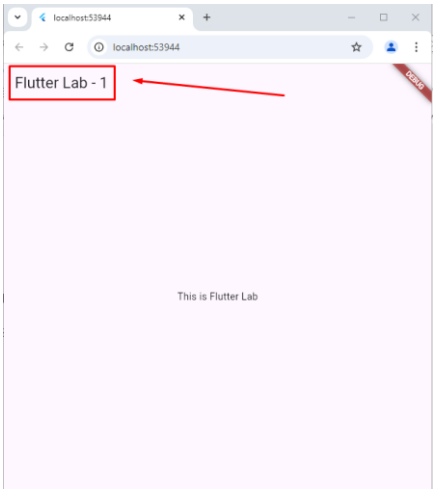
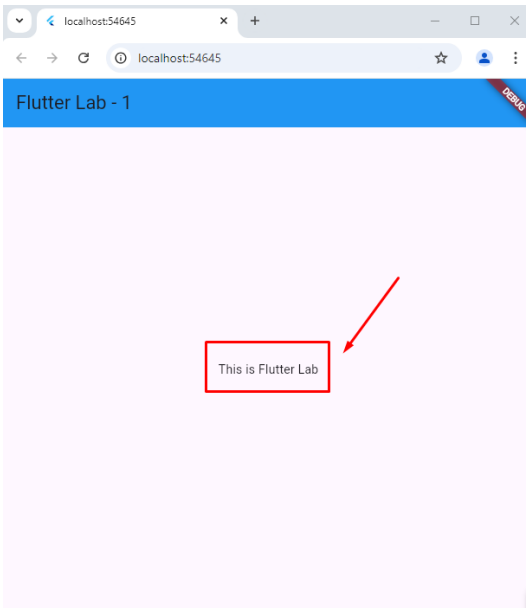
Lab Plan – 1

1. Create a Flutter Project
   Shortcut key → Ctrl+shift+p

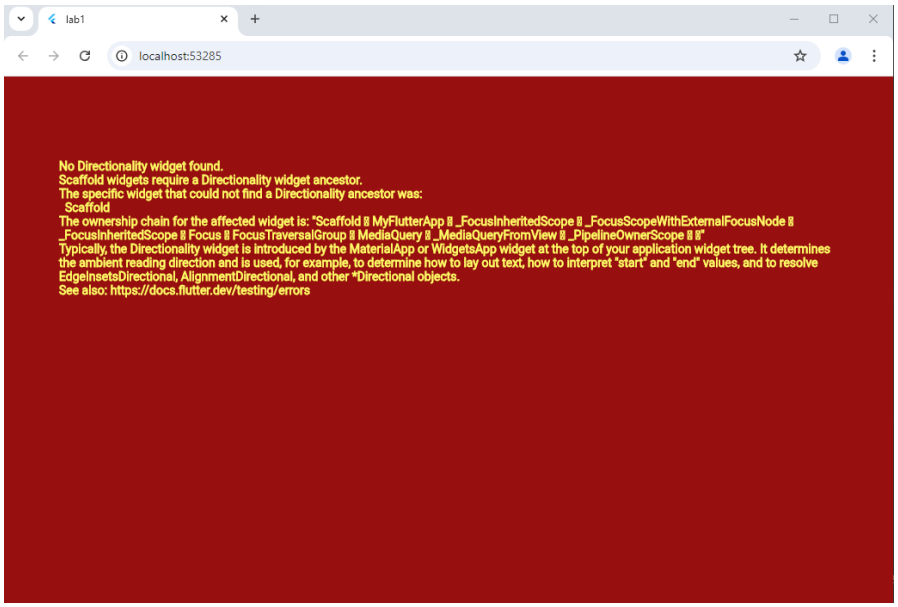
2. Create a Stateless Widget (**stle**) and Add AppBar to your Project.



3. Change the color of the Appbar.
4. Align the Text on the Appbar at center.
5. Add you name at the center of the screen.



Note: **If you are not adding the Material App Design**



6. **Design the UI Layout:**
   - Inside the `Scaffold`, create a `Column` widget.
   - Add a `Row` widget as the first child of the `Column`.

7. Use **Size box** for spaces
8. **Assets and Network Images**
   - Download the image form google
   - Add assets to **pubspec.yml** file
9. Add image to your Project by using assets
10. Add Image to your project by using Network Image
